

Okuden Level Training

Description:

Okuden level training is recommended for people that want to learn more about Reiki, be able to treat psychological problems, give treatments over any distance and go on to become a Jikiden Reiki teacher.

This one day course gives you all the tools you need to be able to treat psychological illness and problems such as phobias, addiction and the ability to send Reiki treatments over any distance. Okuden level training can be taken together with Shoden level training, but we usually recommend that at least a few months are left between them. This allows time to absorb and practice what was learnt at Shoden level before moving on. There will also be hands on practice sessions and practical demonstrations about how to use the psychological and distance healing techniques.

Pre-requisites:

People who show enthusiasm and understanding of Reiki at Shoden Level will be able to progress to Okuden Level.

Useful Applications include:

- Relief from stress
- behavioural problems in children (from babies to teenagers)
- Eliminating bad habits
- Stress Relief
- Anger management
- Addiction and/or substance abuse
- Phobias

You will receive the following:

- English style certificate
- Hand printed Japanese certificate (From the Japanese Institute)
- You will gain further understanding of Reiki,
- learn two more Reiki symbols
- You will receive further Reiju

Opportunities after Okuden training:

You will be able to treat a greater variety of problems with more convenience to yourself and your clients. You may also wish to continue your development and go on to become an assistant teacher (Shihan Kaku). In which case, we are able to organise further training with Master Yamaguchi when he visits the UK.
